@emmanuel-barrieu

Languages

French : Mother Tongue

English: Advanced (C1 - TOEIC 945/990)

German : B1

Hard skills

CAO : SolidWorks, CATIA, AutoCAD

Simulation : ExtendSim

Programmation : Python, C/C++, VBA

Microsoft Pack

Soft skills

Adaptability, team-oriented, strong communication skills, problem-solving

Hobbies

Sports : ski, snowboard, climbing, fitness

Travel and discovery of new cultures

About me

Engineering student, currently in a work-study program at Ratier Figeac Collins Aerospace since 2023, with solid experience in industrial and technical projects.

Education

- **2021-2026 ICAM - Institut Catholique des Arts et Métiers Engineering Degree – General Engineering**

Relevant coursework: Mechanical engineering, electrical engineering, applied mathematics, industrial organization, CAO, simulation, automation, project management. BTS ATI (Industrial and Technical Engineering) completed in 2023.

- **2020-2021 | Champollion High school - Figeac**

French Baccalauréat – Scientific Track (with honors)
Majors: Mathematics, Physics-Chemistry, Engineering Sciences

Experiences

- **2023–2026 (in progress) | Ratier Figeac Collins Aerospace (France) Continuous Improvement & EHS Apprentice**

- Lean projects, process optimization, data analysis
- Modelisation, development of simulation and monitoring tools (AutoCAD, ExtendSim)

- **2025 | Les voiles s'en mêlent (1 month) — Sailboat Simulator**

- Development of physical controls for the sailboat simulator
- Integration of sensor-based inputs to interact in the game

- **2024 | Internship at Care to travel (3 months) in Romania**

- Engineering internship in an NGO
- Meeting, communication, adaptation

- **2022/2023 | Nutergia (10 weeks) — Production Assistant**

- Support to production management
- Process improvements & supplier coordination

- **2022 | ICAM Project (France) — Autonomous Robot Design**

- Mechanical design (CATIA) & motor sizing
- Team project, creativity & technical integration
