Education

2021 - 2026

Master of Science in General Engineering - ICAM

IT, Mechanical, Electronics, Automation, Project Management, Finance.

2021

High School Diploma

Mathematics, Physics, Advanced Mathematics and Latin.

Expertise

- Data & Code :** Microsoft Suite, Google Workspace, Power BI, Appsheet, Skywise, VBA, SQL, Python.
- Engineering :** Solidworks, CATIA, Kicad, SweetHome3D.
- Soft Skills :** Adaptability, Project Management, Problem Solving.

Language

French : Native

English : Advanced (850 TOEIC)

Spanish : Intermediate

Experience

○ **2023 - 2026 (3 years)**

AIRBUS | Toulouse (France)

Data Analyst & Project Manager - Apprenticeship

Project Management & Digitalization: Led the end-to-end digitalization of critical tracking processes for the A350 Final Assembly Line. Designed and deployed tools using AppSheet and Google Workspace, impacting 50+ daily users.

Data Analysis & Dashboarding: Developed automated performance dashboards using Looker Studio, Skywise, and Python/VBA. Transformed raw industrial data into actionable KPIs for management, improving decision-making speed.

Standardization & Continuous Improvement: Defined and implemented strict industrial standards. Coordinated transversal projects involving engineers, subcontractors (QLSi), and management to ensure process rigor.

Change Management: Managed the training and communication strategy for a multidisciplinary team of 25+ people to ensure successful adoption of new digital tools.

○ **2024 (3 months)**

Care2travel | Miercurea-Ciuc (Romania)

International internship in an NGO

International Adaptability: Integrated into a multicultural environment within a local NGO.

Project Support: Assisted in the logistics and planning of community development projects. Developed strong cross-cultural communication and problem-solving skills in a resource-constrained environment.

○ **2023 (1 month)**

SIC MARKING | Lyon (France)

Continuous Improvement Intern

Lean Manufacturing & Layout Design: Modeled and proposed new 2D/3D workshop layouts using SweetHome 3D to optimize operator flow and reduce cycle times.

○ **2022 (2 months)**

SIC MARKING | Lyon (France)

Internship as a Production Operator

Industrial Operations: Performed mechanical assembly and electrical wiring of marking machines. Conducted final functional tests to ensure quality compliance. Gained hands-on experience with mass production constraints.
